

2015-04-30 Test

This is a phishing attempt first reported to CSULB ITS on **April 30, 2015**.

Email Detail

From: Mail Administrator [noreply@csulb.edu]
Sent: Thursday, April 30, 2015 12:45 AM
Subject: Test

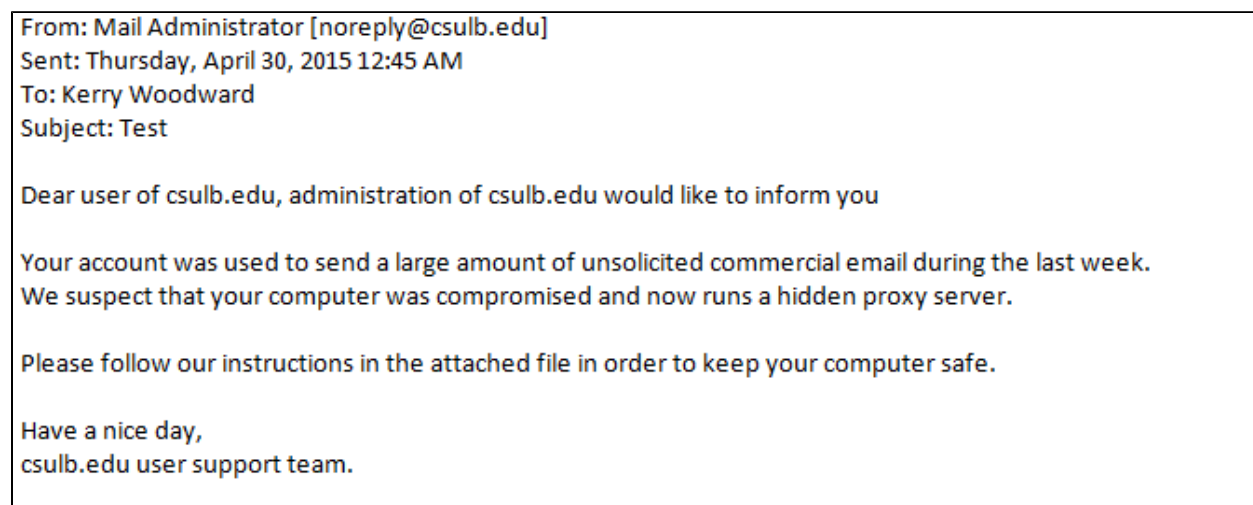

Summary

The user receives a notification indicating their account is suspected as being compromised, as it was used to send out a large amount of unsolicited email. It instructs the recipient to open an attachment to follow instructions for keeping their computer safe.

Intent of the Email

The sender is possibly attempting to obtain BeachID account credentials or installing malware via an attachment for their own malicious purposes.

Dear user of csulb.edu, administration of csulb.edu would like to inform you

Your account was used to send a large amount of unsolicited commercial email during the last week. We suspect that your computer was compromised and now runs a hidden proxy server.

Please follow our instructions in the attached file in order to keep your computer safe.

Have a nice day,
csulb.edu user support team.
